

NON-GLUTEN

GLUTEN AT WAHACA

We've designed this menu to help you choose dishes based on your sensitivity to gluten.

OUR KITCHEN POLICY

While we make every possible effort to avoid cross-contamination, our kitchen is not a factory production environment and we cannot guarantee your dishes will not have come into contact with a gluten-based ingredient.

If you are at all concerned please notify a manager who will explain our procedures and do everything we can to go the extra mile.

FOR THOSE WITH MILDER GLUTEN SENSITIVITY

Some dishes – whilst not containing any gluten in their ingredients – are cooked in our fryers. Whilst our fryers are cleaned and filled with fresh oil regularly, they will have also been used to cook products containing gluten during a service.

Some dishes also contain ingredients that our suppliers cannot guarantee contain no traces of gluten as a result of their production environment.

Dishes marked with a black dot (●) should be avoided by people with coeliac disease or if this level of cross-contamination may affect you.

If the fried element can be removed from the dish on request, it is marked with a blue dot (●).

We don't list everything on the menu so please let us know if you're allergic, intolerant or sensitive to anything, or concerned about cross-contamination. All dishes may contain traces of nuts.

V = vegetarian VG = vegan N = contains nuts
VGO = vegan option available

● / ● = fried dishes, please see the note above on gluten in our kitchen

FROM FARMS TO TABLES

We cook with high quality, sustainably sourced ingredients:

- **Grassroots regenerative grass-fed British beef**
- **Sustainably sourced fish**
- **Bold Bean Co Queen™ butter beans**
- **Hodmedod's pulses and grains**
- **Blanco Niño artisanal corn tortillas**

CARBON LABELS ON OUR MENU

Here's our simple guide to help you make more planet-friendly, low-carbon choices:

- = **Low carbon impact**
- = **Medium carbon impact**
- = **High carbon impact**

We've partnered with the experts at My Emissions to share the carbon impact of our dishes.
