IMPORTANT STUFF

We want to make eating vegan at Wahaca as easy as possible, so we've brought all the information together on this menu for you. Let us know if you have any questions or additional requirements when placing your order.

OTHER ALLERGIES

If you are following a vegan diet and have any other allergies or intolerances, please ask to see our full dietary requirements guide which brings all our available information together in one place.

TAKING EXTRA CARE WITH FRIED DISHES

We define dishes suitable for vegetarians as those which do not contain meat as an ingredient and dishes suitable for vegans as those which do not contain meat or animal products as an ingredient. Some dishes - whilst not containing meat or an animal product as an ingredient themselves - have an element that is cooked in our deep-fryers.

Our fryers are cleaned & filled with fresh oil regularly, however they may have also been used to cook products containing a non-vegan ingredient during service. If you are concerned about cross-contamination of this nature, we have marked any dishes containing a deep-fried element with a black dot (●). If the deep-fried element can be removed from the dish on request, it is marked with a blue dot (●).
